

How to make chocolate nests

1. With the help of an adult, melt some chocolate in the microwave.
2. Stir in some breakfast cereal - rice krispies, cornflakes, cheerios, or whatever cereal you have. Broken biscuits could be an alternative.
3. Put into cake cases or small bowls and make a dent in the centre.
4. Add some mini eggs, or you could use grapes, raisins, maltesers, chocolate drops or whatever you have.
